

EDUCATION

STAY SAFE.
CLEAN SMART.
PROTECT EDUCATION.

Cleaning machinery designed
for the education sector.

“We’re on a mission to keep schools safe and protect education”

Their future depends on it.

“ The children of today are the leaders of the future.

As inventors and manufacturers of professional cleaning and disinfection equipment, our primary focus at the beginning of the pandemic was the development of our cleaning and disinfection machinery. This development was crucial to provide help to the education sector in the fight against Coronavirus.

We are extremely passionate about protecting childrens education and have made it our mission to keep schools safe.

Since the outbreak of COVID-19, cleaning and disinfection has been thrust into the public eye, along with the importance of its role in limiting the transmission within the school environment.

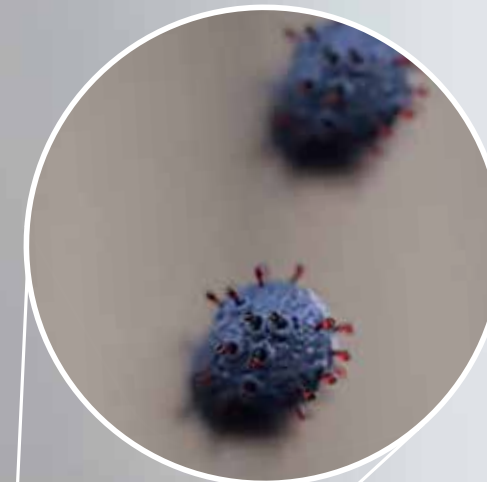

To ensure all schools are safe and remain open during the Coronavirus pandemic, the implementation of mechanical and professional equipment is key to eliminating the risk of cross infection, whilst achieving optimal hygiene results.

In 2020 education suffered. We want to change this in 2021, by providing schools with superior cleaning and disinfection equipment that assures a safe and hygienic school environment.”

**Imre Killi,
Inventor & CEO - MotorScrubber**

Coronavirus survives up to 3 days on stainless steel and plastic.

It is more important than ever to reduce the risk of cross infection, that could occur as easily as touching a contaminated door handle or handrail.

The Ultimate Deep Cleaning and Virus Control System For Schools.

The revolutionary DMT System + Virus Control, **D**eep cleans, **M**aintains and **T**ransforms cleaning and disinfection processes, making it faster and safer, whilst saving effort and cost.

Implement the DMT System + Virus Control into your cleaning schedule and achieve outstanding hygiene results on all school floors, surfaces and environments, helping to protect all students, teachers, and visitors.

Whats included?

JET3
BLADE
STORM®
Wall Dock (Mounts the system to the wall)

JET3 Machine
MSJET3

Deep Clean Your School with JET3.

Use JET3 in all school environments to deep clean floors, walls and stairs.

Page 6

Maintain The Deep Clean with BLADE.

BLADE delivers superior cleaning results throughout all school areas, compared to regular mopping systems.

Page 10

BLADE
Handle, Frame & 1 S-Fibre

Add Virus Control with STORM® M-Wipes

Use STORM® & M-Wipes to disinfect all common touch points around the school reducing the risk of cross infection.

STORM Wand Only
MSSTORM

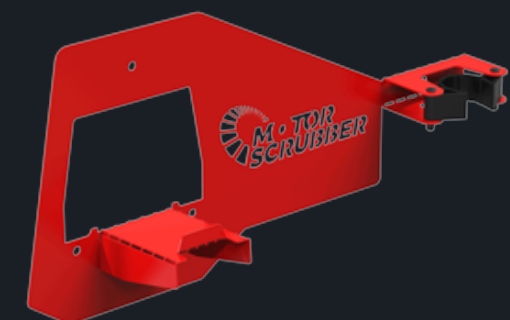

Connects to JET3 Backpack

Grab. Clean. Dock.

Limited storage space for cleaning equipment? Wall Dock mounts your DMT System to the wall for easy storage.

Wall Dock
MS1073

Conquer The Hard To Reach Areas.

Fitting into spaces other machines simply cannot reach, JET3's powerful scrubbing action releases ingrained dirt from any surface.

JET3 KEY FEATURES

-  On Demand Spray
-  Powerful 360rpm Scrub Technology
-  Battery Backpack Technology (User Fully Mobile)
-  Deep Clean The Tightest Spaces

DUAL
P•WER
1 BACKPACK. 2 MACHINES.

Targeted Spray-Scrub Technology.

The on-demand, targeted Spray-Scrub Technology, allows JET3 to quickly deep clean floors, walls and stairs.

JET3's compact size allows the user to deep clean hard to reach areas, including:

- **Underneath tables**
- **Toilet cubicles**
- **Staircase risers**
- **Corridor edges**

JET3's versatility also grants access to hard to reach grout lines. Simply angle the brush and remove ingrained dirt effortlessly.

Targeted Spray On Demand.

Solution is delivered through the powerful, high pressure pump for targeted application.

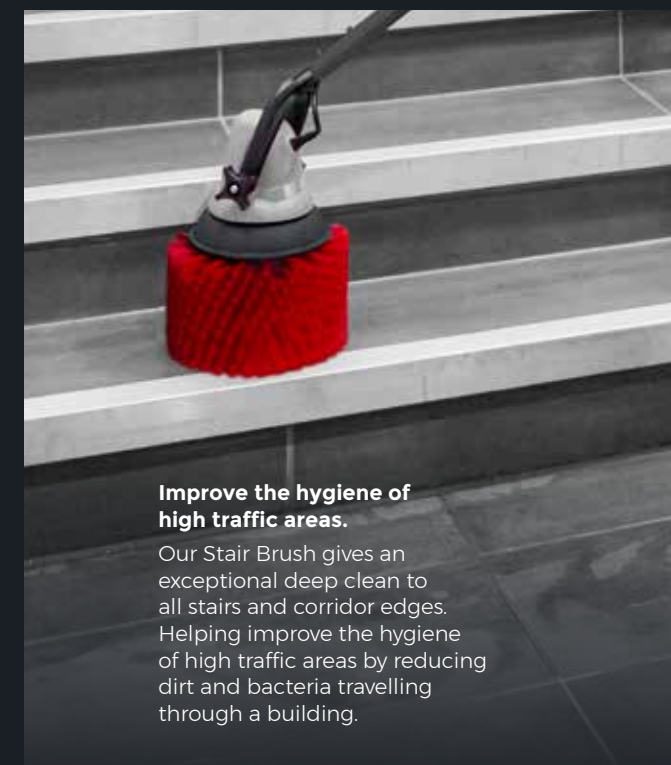

Lightweight & Comfortable.

Secured to the waist, the battery-powered backpack maintains perfect posture for all day wear.

Powerful.

The M10 Motor delivers high torque (10,000rpm geared to 360rpm) generating exceptional cleaning results.

Improve the hygiene of high traffic areas.

Our Stair Brush gives an exceptional deep clean to all stairs and corridor edges. Helping improve the hygiene of high traffic areas by reducing dirt and bacteria travelling through a building.

Designed with the user in mind.

The ergonomics of JET3 allow the user to fully adjust the machine vertically and horizontally, optimising the overall cleaning performance.

Telescopic.

JET3 quickly adjusts to any user height, thanks to its integrated telescopic handle.

Pivoting Handle.

Easily gain access and clean underneath objects as low as 20cm (8"), using JET3's pivoting handle.

Cut Dirt. Not Corners.

The 2 in 1 Ultra-Microfibre System delivers an unbeatable clean. Providing up to 80x more surface pressure, BLADE's powerful performance allows for effortless cleaning within all school areas.

BLADE KEY FEATURES

 **Fresh Solution** (With Every Spray)

 **Up to 80x More Surface Pressure**
(Compared To Other Flat Mops)

 **Precision Edge Cleaning**

 **Up To 4x More Coverage**
(Reversible Ultra-Microfibre)

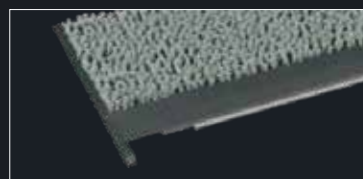

2 IN 1
SYSTEM

FUNCTION 1

Power Squeegee

After scrubbing the floor with JET3. Use BLADE's sharp, flexible, rubber Power Squeegee to remove and draw dirty liquid from underneath tables, chairs and changing room benches into a floor drain.

No Floor Drain?

To dry the floor attach the absorbent Microfibre (A-Fibre) to absorb dirty liquid and dry the floor. (Holds 500ml/0.13gl)

FUNCTION 2

Ultra-Microfibre Mopping System

Simply attach your choice of Ultra-Microfibre to the Power Squeegee, to transform BLADE into the ultimate mopping system. Designed for daily use in all school environments. Including:

- Classrooms
- Kitchen
- Toilets

NO NEED FOR BUCKETS

With its refillable handle and built in spray, BLADE sprays fresh, clean solution on-demand, activated by the push of button.

Every Press = Fresh Solution

SPRAY

Built-in, three way jets spray fresh solution evenly.

ULTRA-MICROFIBRE

UP TO **80x**
MORE
SURFACE
PRESSURE

More Surface Pressure.

The Power Squeegee's sharp edge exerts up to 80x more surface pressure onto the Ultra-Microfibre* resulting in more dirt removed with each clean.

Fully Interchangeable.

Slide the Ultra-Microfibre into the channel to attach, slide down to remove.

Reversible.

Reset the Power Squeegee on the Ultra-Microfibre to reveal a clean section. Once dirty, flip the Ultra-Microfibre for continued clean use.

Every Reset = Fresh Ultra-Microfibre

*Compared to conventional flat mops.

Start Being Proactive

With Virus Control.

STORM® and M-Wipes. The world's only spray applicator with wearable and disposable wipe system (Patent Pending) specifically invented for fast, targeted, disinfection of common touch points in the fight against Coronavirus.

STORM® AND M-WIPES KEY FEATURES

-  **Spray On Demand**
-  **Ballistic, High Speed Swirl Nozzle** (68 Micron)
-  **On-Board System** (M-Wipes attach to STORM® backpack)
-  **Quick Wipe Reload**

DUAL
P•WER
1 BACKPACK. 2 MACHINES.

The New Standard In Touch Point Disinfection.

STORM® delivers a Perfect Liquid Layer of disinfectant on all common school touch points. Including:

- Door handles
- Tables & chairs
- Stairway railings
- Light switches

The M-Wipes System allows disinfectant to be applied to the reverse side of 3D touch points, e.g door handles, ensuring the specified chemical contact/dwell time is achieved.

DESIGNED TO
HELP FIGHT

Coronavirus
COVID-19

Targeted Disinfection.

STORM® delivers targeted, touch point disinfection, for proactive virus control. (STORM® can be used with any disinfectant)

Lightweight & Comfortable.

The battery-powered backpack guarantees all day comfort. With padded back support and adjustable waist belt, it maintains perfect posture all day.

Fatigue Free Use.

At just 0.3kg (0.66lb) the STORM® Wand is lightweight, designed for prolonged use and ensures the wrist is straight at all times.

Wipe Out The Risk.

Fitting to the STORM® backpack belt system, the M-Wipes wipe dispenser and disposal pouch, allow for rapid wipe release and convenient wipe disposal.

Wipe Dispenser Pouch.

Dispense wipes with ease using unique split funnel system. Holds one roll of 100 non-absorbent wipes.

Wipe Disposal Pouch.

Convenient wipe disposal pouch includes holster to store STORM® on the go.

“ The impact of the Coronavirus outbreak on the education sector has been unprecedented.

Exams have been cancelled, home schooling has become the norm and teachers, parents and students are under huge amounts of pressure and uncertainty.

We need to get children back into education as quickly and as safely as possible, to ensure they continue to be educated and develop as people.

Our mission for 2021 is to ensure all schools are provided professional cleaning and disinfection equipment, keeping students and staff safe and the school environment hygienic, throughout the Coronavirus pandemic and beyond. ”
